From The Dr of P H
Letter No C 585-13 Dy 30 3-42
Fds a report in the matter Subd for orders

1) The Dsr of P H reports that the estimate for Rs 30,180 for the improvement of water Supply to the Channarayapatna town, the Cost by met by the Mcly and Govt in equal proportions, was Sanctioned in G O Dated 29 2 1940 The 1st share of the Cost amounting to Rs 15,090 has already been deposited

2) The original estimate has now been revised to Rs 37,555 resulting in an excess of Rs 7325, which has to be met by the Mcly and Govt in equal proportions The 1st Council has agn resolved to meet many of the excess cost before the Completion of the water Supply scheme and it is not possible at present to meet the excess cost from the 1st fund

3) The Dsr of P H recommends sanction to the revised estimate for Rs 37 555, In View of the urgency and scarcity of water at the place the Sanitary Engineer has been permitted to place orders for the necessary Machinery in anticipation of sanction of Govt

4) The file may perhaps be referred unofficially to the Chief Engineer of Mysore for scrutiny of the estimate in the first instance

5) The reasons for the excess are found

Water Supply Scheme for Chamarajapatna Major than mly

Mc H32/L 1961-62

From The Dir of P H
No C585-21 dy 16.7.1962
Furnishes the information called for

24) The Dir of P H was requested vide this office letter no dy 28.6.62 to submit the original estimate for Rs 30,180/- for the Chamarajapatna Water Supply scheme with tenders received for the same with the comparative statement showing the increase in the cost of the machinery etc

25) It has been stated verbally that 20 tenders were called for in the case of the original estimate as material alterations had to be effected in the same hence a revised estimate for Rs 37,555 was prepared & submitted to Govt for sanction

26) It is further stated that even this revised estimate requires further modification in view of the present level of prices of the machinery etc Hence, the Dir of P H requests that the revised estimate may be returned for necessary modification and retransmission

27) Submitted for orders of the estimate and connected records may kindly be sent to the Dir of P H for further modification as requested by him

Mahajan 20.7 28/7 The work was sanctioned vide for back as February 1962 Rs 15,090 Instalment of the cost amounting to Rs 15,090 has also been paid up

~~20~~) Even though 2½ years (nearly) have passed by, the work has not yet been taken up. The estimate is still on the stage of revision — perhaps for the second time. At this rate, it may be that the expenditure to be incurred on the scheme will be beyond the capacity of the municipality and the work may have to be dropped. If the Sanitary Engineering Bureau had taken action quickly as soon as the estimate was sanctioned, all the additional expenditure would have been perhaps avoided. There was an interpellation at the R. on June 1941 on this subject. The Dy C-H has not stated the reasons for the mistake delay in taking up this work — for over 2½ years. By the perusal the estimate will however be returned requested to the Dy C-H as requested with a request to expedite the submission of the revised estimate.

42) Refer for orders with reference to paras 2 and 3 of the notes supra

43) The letter of the Dy C.P.-I.t dated 18/11 to Mr 17/11 is for perusal

On the cover reporter, his proposal to apportion the work relating to the water supply scheme at Chennarayapatna among two or three contractors may be approved, in the interest of speedy execution of work, which was launched more than two years & eight months ago. But it would have been better if the revised estimate for the work had been invited so that the exact quantity & excess over the original estimate would have been known & the ways & means of meeting the same also settled. Otherwise it would be a commitment on the part of Govt to an expenditure, the extent of which is not known & the local rulers may plead inability - being beyond their means - to finance any part of the excess expenditure. The revised estimate will be asked for in due course.

Water Supply Scheme for Channarayapatna town

Continuation Sheet Mel File No 71 / Current No of 41 Page

100) The revised estimate for the Water Supply scheme is for Rs 43,140 / which has to be met by Govt and the Mel Council in equal proportions The Municipal Council has already paid a sum of Rs 16,350 towards the Municipal Quota of the Cost amounting to Rs 21,570 and the balance to be paid by it during the years 1962-63 & 1963-64 is Rs 5190

101) The excess over the original sanctioned estimate for Rs 30,180 is Rs 43,140 – Rs 30,180 = Rs 12,960 which half of which viz Rs 6,480 has to be borne by Govt out of the Water Supply grants during the current year and the next As a sum of Rs 5477 has already been provided for, for the purpose under the Water Supply Grant for the current year, balance a sum of Rs 1003 only will have to be provided for under the W S Grant for the year 1963-64

Govt Lr 8778 51/Mel 103-62 S & 2-3-63

Rs 6480
5477
Rs 1003

There is a reserve of Rs 7,2000/- Still available under this head This amount can be met out of

102) Towards the Govt share of the Cost, a sum of Rs 5477 has already been sanctioned from out of the provision of Rs and a lakh (Rupees) made in the State Budget for the current year under the head 30-2 Improvement of water supply etc

103) Dealt with reference to para 98 supra

To

The Secretary to Government,
Law Department,
Bangalore

Sir,

Re Channarayapatna Water Supply

With reference to your Official Memorandum No L 5942 dated 10th January 1942 forwarding for report the petition addressed to the Dewan from the residents of Channarayapatna Town for the early completion of the remaining three borewells for the supply of drinking water to the town during this summer itself, I have the honour to state that the Sanitary Engineer in his No 1126 dated 26-1-42 reported that there had been material deviation from the original estimate for Rs 30,180/- sanctioned in Government Order No L 7510-13 Ml 147-38-47 dated 29th February 1940 The revised estimate received from the Sanitary Engineer for Rs 37,555/- was sent to the President, Municipal Council, Channarayapatna and the same has been received duly countersigned by the Municipality through the Deputy Commissioner, Hassan District

The Channarayapatna Municipal Council have resolved to meet half the excess, the Municipal quota being made available before the completion of the work, the other half being met by Government

Your memo No L 739 dated 16-2-42 was received in this office on the 17th February 1942 and the Sanitary Engineer was asked to go into the matter A copy of his reply No 31 dated 23-2-42 is enclosed for the information of Government The Sanitary Engineer wanted approval of this office to place orders for the necessary machinery and pipes to start the work He has this day been permitted to do so immediately, in anticipation of approval of Government

I request you to be so good as to obtain and convey sanction of Government to the revised estimate of Rs 37,555/- and to the Government share of the excess over the original estimate out of Reserve under Water Supply Grants

The revised estimate with the resolution of the Chennarayapatna Municipal Council and a copy of letter No Ml C 3666/40-41 dated 14th March 1942 of the Deputy Commissioner, Hassan are also enclosed

I have the honour to be,
Sir,
Your most obedient servant,

Director of Public Health

Letter No 31 dated February 22, 1942 from the Sanitary Engineer, Bangalore, to the Director of Public Health in Mysore, Bangalore

---

Re Improvement of Water Supply to Channarayapatna Town

I have the honour to invite your kind reference to the telephone message that you sent to me just before I left Bangalore to Channarayapatna on my tour of inspection in connection with the above matter Accordingly, I met the Amildar-President and the Municipal Councillors at Channarayapatna this day afternoon and made a detailed inspection of the town In their presence I went through the revised estimate of Channarayapatna water supply improvements The position is as follows

The Municipal Council have credited 15090/- being half the share of cost against the original sanctioned estimate of Rs 30,180/- This estimate has subsequently been revised and the revised estimate stands at Rs 37,555/- The Municipal Council, when approached, for meeting their excess share of cost, viz , Rs 7,375/2 = 3,687-8-0 state that they are at present very hard pressed for finance and that if the work is immediately started and the machinery and pipes are obtained and the bore well pumps are installed, they could arrange to meet the extra cost later on during the course of another three or four years Out of Rs 37,555/- half the cost will have to be borne by the Government and Rs 15,090/- out of Rs 18,777-8-0 being the municipal share has already been made available Under these circumstances, I feel that it is desirable to immediately take up the work and arrange to get the necessary pipes and machinery, the balance of Rs 3,687-8-0 which is all that is due from the Municipality being arranged to be got from them at a later stage when all the work is completed If you approve, the necessary machinery and pipes can straight away be ordered and work started, particularly since the difficulty for water supply in Channarayapatna is very great Further delay in this matter will mean that even the revised estimated figures will be out of date and the estimate will have to be re-revised The Municipality is agreeable to this proposal and is also agreeable to meet the excess charges at a later date when the work is all completed

Sir,

Re Revised estimate for water Supply to Chandragupatna

With reference to your letter o L 10602/41 23-4-42 calling for certain particulars on the above subject, I have the honour to state as follows

The original estimate for s 50,180 was sanctioned in o o L 7510-13/ 1 147-38-37 dated 29-3-40 On account of the fact that certain material alterations from the sanctioned estimate were necessary no tenders were called for, a revised estimate for s 67,000 was prepared Even this revised estimate requires revision on account of the rise in cost of machinery, pump etc The Sanitary Engineer in his letter o 1933 dated 29-5-42 requests for the return of the estimate, vide copy of his letter enclosed

I therefore request you to be so kool as to return the aforesaid revised estimate for necessary correction and revision A separate revised estimate will be submitted to Government

I have the honour to be,
Sir,
Your most obedient servant,

P Parthasarathy

Revised estimate for the scheme of water supply to Channarayapatna

---

With reference to your letter o 503-17 dated 4th May 1942 forwarding letter o 1050 / 1 dated 23th April 1942 from the Secretary to Government, Law Department, Bangalore, calling for certain particulars in regard to the above and o o 585-19 dated 11th June 1942 reminding about its early submission, I have the honour to submit as follows -

1 The original estimate for this work for 50,190/- was sanctioned in Government Order o L 7510-15/41 147-38-37 dated 29th February 1940 Tenders could not be called for as there had to be effected material alterations from the original sanctioned estimate as, on account of the fact that while the source proposed in the original estimate was an ordinary well below the tank, the source to be adopted are borewells sunk in different parts of the town The original estimate needed also other modifications To cover all these, a revised estimate for 67,000/- was submitted in this office letter o 1105 dated 30th January 1942 Even this revised estimate needs slight further revision in view of the fact that the cost of machinery pumps etc , which have now been ordered as per Deputy Commissioner s request have risen in price The revised estimate may therefore be returned for correction after providing suitably towards the cost of machinery etc , in the light of the present market situation

Subject Water Supply Scheme for the Channarayapatna municipality

Sir,

With refee to the Correspondan ending with your letter No C585-24 of 16 7 1942 on the above subject, I am directed to observe as follows -

The work was sanctioned so far back as February 1940 the municipal quota of the cost amounting to Rs 15,090 has also been realised, but the work has not yet been taken up although 2½ years have elapsed The estimate is still in the stage of revision - perhaps for the second time At this rate it may be that the expenditure to be incurred on the scheme would be beyond the capacity of the ML Council, and the work may have to be taken off If the Sanction

WD 086—GPB—40 000—30 7 40

Engineering Bureau has taken action quickly as soon as the estimate was sanctioned, all the additional expenditure would have perhaps been avoided the wordenath delay of nearly 2½ years ~~in taking up the scheme~~ is very unsatisfactory and the explanation of the Concerned officers as demanded for sh may be obtained and forwarded to Govt early

The estimates and the Connected records are returned herewith as requested ~~by you~~ with a request that a modified estimate therefor may be prepared and submitted for the orders of Govt very early in consultation with the Hon. V. C. Hariharan Pillai and the Hon. Dewan Rajaseka Menon Mel. Council

The matter may be kindly treated as urgent

WATER SUPPLY SCHEME FOR THE
CHANNARAYAPATNA MINOR MUNICIPALITY

Sir,

With reference to the correspondence ending with your letter No C 585-21, dated the 16th July 1942, on the above subject, I am directed to observe as follows:-

This work was sanctioned so far back as February 1940 The Municipal quota of the cost amounting to Rs,15,090, has also been paid up, but the work has not yet been taken up although 2½ years have elapsed The estimate is still in the stage of revision-- perhaps for the second time At this rate it may be that the expenditure to be incurred on the scheme would be beyond the capacity of the Municipal Council If the Sanitary Engineering Bureau had taken action quickly as soon as the estimate was sanctioned, all the additional expenditure would have perhaps been avoided The inordinate delay of nearly 2½ years is very unsatisfactory, and the explanation of the concerned officers responsible for it may be obtained and forwarded to Government early

The estimates and the connected records are returned herewith with a request that a modified estimate therefor may be prepared and submitted for the orders of Government very early in consultation with the Deputy Commissioner, Hassan District and the Channarayapatna Minor Municipal Council

The matter may be kindly treated as urgent

I have the honour to be,

Sir,

Water Supply to Chennarayapatna Town

Adverting to your Memo No L 1246 dated 30-7-1942 forwarding a copy of letter addressed to the Director of Public Health on the above subject, I have the honour to state that the Municipal Council have, at their meeting held on 22-6-1942 resolved agreeing to meet half the cost viz , Rs 1790/- being their share over and above the revised estimate of Rs 37,555/- They have further resolved that, in view of the scarcity of funds a loan of Rs 1790/- may be sanctioned by Government towards their share of the excess cost subject to repayment within one year after the completion of the works

The Sanitary Engineer in his letter No 1923 dated 29-6-1942 to the Director of Public Health has stated, that, even this revised estimate needs slight further revision in view of the increased cost of the machinery pumps etc ,

I may state in this connection that it is necessary to have the final estimate to know the exact amount which the Municipal Council have to shoulder before submitting proposals for the grant of loan

I have therefore requested the Director of Public Health to intimate the exact amount which the Municipal Council have to provide over and above what has already been deposited by them and on receipt of his reply and the modified estimate, I shall submit proposals to finance scheme for orders of Government

Letter No. 29 dated 2nd October 1943 from the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore, to the Director of Public Health in Mysore, Bangalore

---

Re Channarayapatna Water Supply Works

I have the honour to enclose herein a note with regard to the present condition of the above water supply scheme. The machinery is expected to arrive and the 2 nos. C.I. pipes since they are now not under manufacture have to be replaced by 3 pipes, for which an order has been placed with M/s. The Mysore Iron & Steel Works, Bhadravathi. On account of the reasons set forth in the note, there is going to be an excess over the revised estimated figure of Rs. 37,500/-. On receipt of instructions as to whether the work of construction of the R.C. tank, construction of pump houses, etc. may be apportioned amongst two or three contractors, the work will be taken up and pushed through as soon as the machinery arrives. A copy of the note was personally submitted for discussion with the Minister and obtaining his orders.

Note on Channarayapatna Water Supply

Orders for the machinery, viz. the centrifugal pump and the deep well pumps etc. have been placed and the supplier who was sent for states that the machinery will soon be supplied. The Mysore Iron and Steel Works, Bhadravathi, with whom orders for the C.I. pipes for the rising main and the distribution system were placed have stated their inability to take up the work until January 1944 since they have got a large number of other urgent orders on hand. They have discontinued manufacture of 2½" pipes, and it is now essential to buy 3" sizes instead.

Also, tenders for construction of pump houses, for laying of the rising main of the distribution system and for the construction of R.C.C. elevated tank etc. were called for and the only tender received quotes 30% excess. Under these circumstances, local enquiries have also been made with a view to get each one of these parcelled out to different contractors and if possible, to reduce the cost. It is seen that the quotations received from various people are not favourable, and under the circumstances, it

it is apprehended that there will be an extra expenditure of about Rs 3,500/- more on these counts Orders are requested whether the works may be dispensed of and a final revised estimate incorporating all these excesses may be submitted If permission is accorded, all those items of work can be put on hand pending the receipt of the machinery by which time the pump house etc can be kept ready

Sir

Subject: - after supply to hannarayapatna own - inordinate delay -- explained

Ref: ID No 2965 Recd 01

With reference to your letter o n 1245/ l 71-41-12 dated 30th July 1942 on the above subject, calling for the explanation of the concerned officers responsible for the inordinate delay of 2 years, I have the honor to state that the original scheme sanctioned in G O o n 7510-13/ l 147-38-17 dated 29th ebruary 1940 provision was made for a curb well of 18 diameter and 30 ft depth below the hannarayapatna tank

The curb ell scheme proved a failure and after obtaining the acquiescence of the President, own Municipal Council, hannarayapatna and the Deputy ommissioner, assan District to the sinkin of bore-ells, the first borewell was started on 30-7-40 and completed on 10-1-41 with a yield of 1400 gallons per hour nother borewell was also sun and completed in July 1941

Since the scheme, as originally sanctioned, had to be changed on account of the above circumstances, the then anitary Engineer Mr K S utcha Rao, after inspection of the place in October 1941, is reported to have ordered the Asst Engineer in charge for the preparation of a revised estimate he revised estimate for 37,000/- was obtained by the anitary Engineer in December 1941 and sent to this office on 30th January 1942 The same was transmitted to the President, hannarayapatna Municipality with this office o n 880-4 dated 16-2-1942 for countersignature and return the estimate duly countersigned with the resolution of the hannarayapatna Municipal ouncil was received from the Asst ommissioner

in March 1942 and forwarded to Government with this office letter No. 383-13 dated 30-3-1942 for sanction

In the mean while the Sanitary Engineer in February 1942 wanted approval of this office to place orders for the necessary machinery and pipes to start the work. This was granted vide [illegible] The revised estimate for Rs 87,000 required revision on account of rise in the cost of machinery, pumps etc and the same had to be withdrawn for preparation of a modified revised estimate vide this office letter No. 383-21 dated 17th July 1942 addressed to Government and your letter under advertance

Had it not been for the inordinate rise of prices of both the machinery and galvanised pipes and the non-availability of cast iron pipes from the Mysore Iron and Steel Works, for the construction of the raising main, the work should have been completed [illegible]

The machinery is expected to arrive shortly. Since the price of pipes is very heavy, the use of galvanised pipes is proposed to be avoided as far as possible by the provision of minimum number of street hydraunts

From the foregoing it will be seen that there does not seem to have been any delay on the part of the Sanitary Engineer, the delay was inevitable in the circumstances. The purchase of machinery in advance was also not possible as in the event of failure of supply from borewells, it would have been a waste

For speedy execution the work has been apportioned between different contractors in anticipation of approval of Government, pending the submission of the modified revised estimate, vide this office letter No. 148-16 dated 11-11-42. The General Manager, Mysore Iron & Steel Works, Bhadravathi, has also been addressed in this office letter No. 143-3 dated 10-11-42 for the immediate supply of the required pipes and special, vide copy enclosed

Copies of letters No. 476 & 474 dated 16-10-42 of the Sanitary Engineer, and the enclosure are attached herewith for the information of Government

I have the honour to be,
Sir,
Your most obedient servant,

[illegible]

Letter No. 14-15 dated 11-11-[illegible] from the Director of Public Health in Mysore, [illegible] to the Secretary to Government, [illegible] Department, [illegible]

Mummaray Extra Water Supply

I have the honour to enclose herewith a copy of letter No. [illegible] dated 5-10-[illegible] of the Executive Engineer to whom with a copy of [illegible] of the above subject stating that the Contractor received for construction of [illegible] Masonry, Brick Masonry, Labour charges, construction of the elevated [illegible] and distribution is 50 in excess of the Sanitary Engineer proposes to carry out the work to different portions involving even now an extra expenditure of about Rs. 10,500/- over the original ~~[illegible]~~ sanctioned estimate of Rs. 50,180/- stating with details the details of possible excesses under different items of the original estimate I enclosed herewith for the information of Government revised estimate incorporating all the excesses will be submitted by the Sanitary Engineer later, and the same on receipt will be forwarded to Government for sanction.

In view of the fact that daily delay in taking up the work means increased cost and the people of the town are clamouring for water supply on account of scarcity of water at the place, I have permitted the Sanitary Engineer to apportion the work also to two or three contractors for speedy execution pending submission of a final revised estimate.

I request you to be so good as to obtain the convey sanction of Government to the action taken pending submission of the revised estimate later.

Letter No. [illegible] 148-9 dated 10th November 194[illegible] from the Director of Public Health in Mysore, Bangalore, to the General Manager, Mysore Iron and Steel Works, Bhadravati

Subject - evised estimate for ater supply scheme for the
Channarayapatna minor unici ality and explanation
for the delay in he execution of work -

-

I th reference to our me o o 14 - / - dated 3rd
ctober 19 2 requestin the submission of the revised estimate
and a report re arain the delay, I have the honour to state hat
the ssist nt en ineer, o Sanitary ub Division, asan is
requested to expedite the submission of the revised estimate
ta ing into consideration the excess cost of the machinery hich
were definitely ordered and hich are expected now to arrive
e is lso intimated to omit for the time bein the galvanised
iron pipes needed for the distribution syst m and to provide for
the minimum n ber of street hydrants, as far as possible avoidin
galvanised iron pipes hich are inordinately costly since this
m ans some delay I request that for the submission of the final
revised es imate some time(about a month) may kindl be allo ed

s regards the explanation for the delay of 22 years in
the execution of the work, the enclosed note ives the exact
sit ation The curb well scheme as ori inally sanctioned was
found to be a failure, there af ter the question of ater supply
to Channarayapatna tow entirely depended upon the yield from
new bore ells hich h d to be sunk Under these circumstances,
it is to be submitted that there does not seem to be ny delay
on the par of the Sanitary Engineer At the times were normal
and there was no day to day fluctuation, there would have been
no necessity for the revision of the sanctioned estimate It was
also not possible to ob ain the machinery in advance, since in t
event

event o failure or su ply fro sore ells, the sa e could not have be n used and would a ve to be sold ou or trans erred else here

---

Letter o 47 dated 15th October 19 fro the ni ary n ineer, an alore, to the irector of ublic l th in y cre, n lore

---

o rains - inal revi ed es ate for chan r yarah town ater su ply-

---

t reference to your o o 143- a ted 12th u ust 19 inquirin as to h r it ould be po sible to fix the exact inal revised est ated alounts for the bove work etc , a have to honor to state that since the co t or alvani ed iron pipes i one inonth ly hi i and h ndrad ana to n cannot afford it, i have requested the sistant ni neer, o sanitary sub ivisio assan to provide for the follown in re ain l revised e timate and submit he sa e expeditiously

1 he deep well pumps ets have been also ordered and which are expected to arrive in the next fifteen days he ain l cost of the same is no available

2 he contribu al pu pin sets - hese have also been ordered and are e pected to arrive very soon

3 he Reservoir to o er ith rising main - urrent ar et rates for the sa e will be taken as the price could be fixed ithout uch or doubt ans ers have bee called for nd the rates tendered could b adopted

4 In place of co lete distribution sy tem, it is considered desirable to ake the urch se o l r e quantiti s of alvani ed iron pipes and the supply of ater will be li ited to only a li ited nu ber of street fountains hen we return to norma conditions, the full distribution system can be fi ll

The Deputy o missioner, asaul istrict, ay also be intimated the definite fi ures of the final revised estima e when it is o ready

Subject: Water Supply in Channarayapatna Town

With reference to your letter No L 6803/Ml 71-41-19 dated 13-1-43 forwarding a revised estimate for Rs 42,200/- for the water supply work at Chennarayapatna for being countersigned by the President, Chennarayapatna Municipality and also requesting to obtain the resolution of the Municipal Council re the ways and means as to how the Municipal Council proposes to meet its quota, I have the honor to forward herewith the entire file together with the estimate duly countersigned by the President and to state the Muncipal Council have resolved

1 that the estimate should not be revised once again,

2 that water should be supplied within 6 months from this date

3 that taps may be fixed as per Council's opinion

4 and that if the above conditions could not be fulfilled, they request that the scheme might be dropped till the end of the war

2) As regards the ways and means as to how the Municipal Council proposes to meet the Muncipal quota, i e , Rs 23,100/-, it is stated that already a sum of Rs 16,380/- has been adjusted in cash and by way of loan towards the work The Municipal Council proposes to pay Rs 2,000/- out of the budget of the current year by June 1943, towards the balance of Rs 4720/- and that the remaining amount of Rs 2720/- will be paid at the end of the year 1943-44 from out of the closing balance of the Municipal funds The President also suggests as an alternative that if the above proposal cannot be accepted he requests sanction of a loan of Rs.4720/- from Government to be repayable in instalments

along with the other loans that are

that are being paid b tle Municipality

3 In the above circum tances, I am of opinion that the representations of the Municipal Council adverted to in para one supra are reasonable and may kindly be considered P arding the payment of the balance of Rs 4720/- from the Municipality, I recommend that sanction of Government may kindly be obtained to the first proposal of the Council for adjustment of the entire amount in two e rs and communicate orders of Government e rly

6 | The entire records accomp ny for reference and return.

Water Supply Scheme for Channarayapatna Town.

Flag J/ With reference to your letter No L 7301/M1 71-41-31 dated 27th January 1943 enquiring whether the conditions imposed by the Channarayapatna Municipal Council while countersigning the revised estimate for Rs 42,200/- could be complied with, I have the honor to state that the first three conditions are not acceptable

Condition No 1, 'that the estimate should not be revised once ag

In these days of day-to-day fluctuations in the prices of materi when the materials themselves are not easily available there may be a revision of the estimate

Condition No 2 That water should be supplied within 3 months from the date of the resolution of the Municipal Council -

This can be ensured if all the material required for the comple of the work is easily available The Sanitary Engineer reports that even now the necessary C I pipes and pig lead are not available and expects the supply of the material from the Mysore Iron & Steel Work early The greatest amount of pressure is being put on the Assista Engineer in charge of the work to push on with the work Under the circumstances the only assurance that can be given is to hasten the work as much as possible within practicable limits

Condition No 3 That taps may be fixed as per Municipal Council opinion

Though the opinion of the Municipal Council will be taken in th matter, yet the final decision will have to be with the Sanitary Eng who has to decide the location of the taps after detailed inspection see whether the location will be useful in getting water to the spo

Budget Session of June 1942.
Question No.38
by Mr.Ankam Sanjeevasetty.

Will the Government be pleased to state:-

Questions.	Answers.
a) What amount of contribution has been paid by the Cherraryapatna Minor Municipal Council towards the water works?	(a) Rs.15,090/-.
b) When the payment was made?	(b) During the year 1940-41.
c) When the work will be commenced?	(c) As soon as the revised estimate is sanctioned and the required machinery becomes available.
d) Whether a new estimate has been prepared?	(d) Y e s.
e) If so, what the amount of the estimate is?	(e) Rs.37,555/-.
f) the reason for the variation from the original and the present estimates?	(f) The difference between the original and the revised estimates is due to the following causes:-

(1) Provision of three pump houses and one suction well instead of one pump house;

(2) Increase in the cost of machinery required for the engine and pump including delivery mains from deep wells pumps to suction well.

(3) Increase in the cost of the distribution of water in the Town. As against the above, there is reduction of Rs.6,200/- in the estimated cost of the rising main under the revised estimate

Budget Session - June 1942

Question No 38

Mr Ankam Sanjeevasetty,
(Chennarayapatna Rural)

Question -

Will the Government be pleased to state -

Answer

(a) What amount of contribution has been paid by the Chennarayapatna Municipality towards the water works? — (a) Rs. 15090/-

(b) When the payment was made? — (b) During 1940-41

(c) When the work will be commenced? — (c) As early as possible

(d) Whether a new estimate has been prepared? — (d) Yes

(e) If so, what the amount of the estimate is? — (e) Rs. 37,555/-

(f) the reason for the variation from the original and the present estimates? — As it was found that the the curb well originally proposed would be a very inadequate source of supply, two bore-wells have been sunk and hence the variation in the estimate
